MISCELLANEOUS.

THE ANALGAMATION OF LANGUAGES.—There is a growing tendency in this age to appropriate the most expressive words of other languages, and after a while to incorporate them into our own; thus the word Cephalic, which is from the Greek, signifying "for the head," is now becoming popularized inconnection with Mr. Spaiding's great Headache Remedy, but it will soon used in a more general way, and the word Cephalic will become as common as Electrotype and many others whose distinction as foreign words has been worn away by common usage until they seem "native and to the manor born."

Hi 'ad 'n 'orrible 'eadache this hafternoon, hand I steppes into the hapothecary's, hand says hi to the man, "Can you been me of an 'eadache f" "Does it hache 'ard," says 'e. "Hez ceedingly," says hi, hand upen that 'e gave me a [Cephalic PE], hand pon me 'other it cured me so quick that I 'ardiy realized I 'ad 'ad m' eadache.

Headache is the favorite sign by which nature makes known any deviation whatever from the natural state of the brain, and viewed in this light it may be looked on as a safe guard, intended to give notice of disease which might observise escape attention, till too late to be remedied; and its indications should never be neglected. Headaches may be classified under two names, viz: Symptomatic and Idiopathic. Symptomatic Headache is exceedingly common, and is the precarsor of a great variety of diseases, among which are Apoplery. Out, Rheumatism, and all febrile diseases. In its nervous form it is sympathetic of disease of the stomach, constituting sick headache, of hepatic disease constituting bilows headache, of worms, constitution, and other disorders of the bowels, as well as renal and uterine affections. Diseases of the beart are very frequently attended with Headaches; Ansemia and plethors are also affections which frequently occarion beadache. Idiopathic Headache is also very common, being usually distinguished by the name of arrevur keadache, sometimes coming on suddenly in a state of appearantly sound health, and prostrating at once the mental and physical energies, and in other instances it comes on slowly, heralded by depression of spirita or acceptity of temper. In most instances the pain is in the front of the head, over one or both eyes, and sometimes provoking vomiting; under this class may also be named Neuralgia.

For the treatment of either class of Headache, the Cephalic Pills have been found a sure and safe remedy, relieving the most acute pains in a few minutes, and by its subtle power eradicating the diseases of which Headache is the unerring index.

BRIDGET—Missus wants you to send her a box of Cephako.

CONSTIPATION OR COSTIVENESS.

No one of the "many his flesh is helr to" is so prevalent, so little understood, and so much neglected, as Costiveness. Often originating in carelessness, or sedentary habits, it is regarded as a sight disorder of too little consequence to excite anxiety, while in reality it is the precursor and companion of many of the most fatal and dangerous diseases, and unless early eradicated it will bring the sufferer to a untimely grave. Among the lighter evise of which costiveness is the usual attendant are Headache, Colo, Rheumatism, Feul Breath, Files, and others of like nature, while a long train of frightful diseases such as Malignant Fevers, Abcesses, Dysentery, Diarrhea, Dyspepsia, Apoplexy, Epilepsy, Paralysis, Hysteria, Hypochondriasis, Melancholy, and Insanity first indicate their presence in the system by this siarming symptom. Not unfrequently the diseases named originate in Constipation, but take on an independent existence unless the cause is eradicated in an early stage. From all these considerations is follows that the disorder should receive immediate attention whenever it occurs, and no person should neglect to get a box of Cephaile Pills on the first appearance of the complaint, as their timely use will expel the insidious approaches of disease and destroy this dangerous foe to human life.

A REAL BLESSING.

Physician—Well, Mrs. Jones, how is that headache?

Mrs. Jones—Gone, Dector, all gone; the pill you sent cured
me in just twenty minutes, and I wish you would send more, so
that I can have them handy.

Physician—You can get them at any Druggists. Call for
Cephalic Pills: I find they never fail, and I recommend them in
all cases of headache.

Mrs. Jones—I shall send for a box directly, and shall tell all my
suffering friends, for they are a real blessing.

TWENTY MILLIONS OF DOLLARS SYSTEM—M.: Speaking as sold two millions of bottles of his celebrated Prepared Giue, a it is estimated that each bottle saved at least ten dollars worth broken furniture, thus making an aggregate of twenty millions dollars reclaimed from total loss by this valuable invention. Having made his Giue a household word, he now proceeds to the world etill greater service by curing all the aching heads with Generals Phile and off they are a good as his Giue, headed to Generals Phile and off they are as good as his Giue.

Over Excitement, and the mental care and anxiety incident to close attention to business or study, are among the numerous causes of Nervous Headache. The disordered state of anind and body incident to this distressing complaint is a fatal clow to all energy and ambition. Sufferers by this disorder can inways obtain speedy relief from these distressing attacks by sing one of the Cephalic Pills whenever the symptoms appear. It coulest the overtaints have in sorthest the strained and incident of the context the overtaints have been seen to be sufficient to the context the overtaints have been seen to be sufficient to the strained and the strained

FACT WORTH KNOWING.—Spalding's Cephalic Pills are a cer-tain care for Sick Headache, Nervous Headache, Costiveness, and General Debility.

Great Discoversy.—Among the most important of all the great medical discoveries of this age may be considered the system of vaccination for protection from Small-Pox, the Cephalia Pill for relief of Headache, and the use of Quinine for the prevention of Fevers, either of which is a sure specific, whose benefits will be experienced by suffering humanity long after their discoverers are forgotten.

Din you ever have the Sick Headache? Do you remember the throbbing temples, the fevered brow, the losthing and disgust at the sight of food? How totally unfit you were for pleasure, conversation or study? One of the Cephalic Pills would have relieved you from all the suffering which you then experienced. For this and other purposes, you should always have a box of them on hand to use as occasion requires.

on sale, drovers anticipated a proportionate advance in prices; but they are doomed to disappointment again. There was not, at the opening of the market, on Tuesday morning, over 2,900 head on sale, and a very large portion of them were just fair medium grade of beef, and the price of this class opened and continued just about the same as last Tuesday, and somewhat better than Wednesday. The inferior sorts, if anything, were a shade lower, and first-class bullocks a shade better. This class was very scarce, and a good many bullocks sold at prices equivalent to 9 cents net a pound, that could have been bought last week at 8 cents; and some of the same value of such as sold a week ago at 9c. brought 9 c. now, and a few choice extras sold at over 9 c. We found but one broker, on Tuesday, who thought he obtained 10c. for any of his best bullocks. Some of the first-class buyers, however, were quite sure that they paid full 9 c., and for a few 10c. net a pound. Walter Briggs says some of his prove so by weight.

With a very large reduction of numbers of bullocks

pound. Walter Briggs says some of his prove so by weight.

The state of the weather has been particularly unpropitious to drovers. A warm rain on Monday spoiled the Bergen market badly, and turned the snow in the Forty-fourth-street yards, mixed with accumulated cattle droppings, into a very dirty, dark-colored slosh, which could only be traversed in wading boots, and was particularly uninviting to customers, so that sales were hard to effect, where the bullocks could not be properly examined, and consequently a large proportion of the stock remained unsold when the salesmen retired on Tuesday evening. Fortunately the night turned cold, and dried up the mud very much to the comfort of the tired beasts, and buyers, sellers, and reporters.

The number of bullocks on sale at these yards has not been so low but twice (July 4 and November 7) since the middle of March, and not over ten times this year.

Brovers are now in hopes that the low supply this week will enable butchers to clear off accumulated stocks, and make the market better next week. They must not forget that Christmas is coming, and with its great lots of fat beeves, and if the weather helds cold, we shall have mountains of poultry and pork, and that at present prices beef is about the dearest food in the city.

The weather having turned cool, and only a few fresh arrivals of Bullocks, the market has not fallen off any to-day, though it is not very lively, considering the small number on sale, but all will be sold to-day, including about 100 head of stale cattle from last week. Owing to the closing sale being so much better than the closing sales last Wednesday, the whole will average half a cent a pound higher. The very slight advance must not, however, be counted upon as affording any good ground of hope for a continued sdvance, unless under the pressure of series of the quagrant of the distributions of that week; First quality, 9700c; second, 70 sec.; third, 607c; extra 10jc. but exhibiting great perfection. They are owned by John Harris, Washington Market butcher. Three of them he brought here last Spring, and has fed upon his farm in Putnam County, they are 4 or 5 year old Ohio Durhams, now estimated at 12 cett, net average. The other three are from Charles G. Taed's farm—one Durham, which weigh to-day 2,500 fb, and two native red steers which weigh 3,650 fb. These are of very superior quality, and would be worth 120. § fb to-day. They are for Christmas beef.

Another extra pair of bullock-in fact, considering that they

and have, since they retired from actual service, eaten more in value of meal than the present value of their carcas-x. Con. Horrigan a brother butcher, thinks the purchaser would do better to sell them for crockery crates than for beef. We recommend that, before these "agricults" are saughtered they shall be exhibited in the City Hall Park to the members of the Council as sperimens of what New-Jersey can produce beside three-sevenths Bouglas electors.

Gury Has anybody about Washington Market got a contract for "poor-house beef" upon which such stuff as this can be slid in with a little "extra grease?"

COWS AND CALVES.

The Milch Cows market sympathizes with the Beef market. So it will be understood they are dull sale at low prices, though only arriving in small numbers.

Veal Calves are also duller than they have been. A few of the very choicest will bring fe., but many more good ones sell at 6c. If fi., live weight, and common ones are very dull, owing to the low prices of pork offaland roush lets of poultry.

THE SHEEP MARKET

Receipts of the week, 8,650.

While beef is low, and pork ad drug, and poultry to be had at almost any price offered, how can drovers expect to get such prices for Sheep as prevailed two months ago? Then, pelis were salable at \$10\frac{10}{2} + 112\frac{1}{2}\$ now, not salable at 76c. The market this week has been quite brought; varying from day to day 25\frac{2}{2}\$0c. a head. In fact, it has varied that in the same day; it did on Monday. It opened quite buoyant; but there was a sudden change of weather, turning warmer, with min, and that acted like a wet blanket upon all the fire that buyers had exhibited and the day proved as dull in doors as out.

**Tuesday morning eing clear and cool, the market opened a little more brisk, but it soon drooped again, as the weather evinced no sign of continuing sool.

We found at Hrowing's that about 1,000 head had arrived on Tuesday morning, and some of the first sales were at higher rates than have prevailed for some weeks: for inst

lith, 862.
Notwithstanding the very light receipts of Friday and Sator-day, it does not appear that there was any advance on prices; in fact, not as good as on Monday and Tuesday mornings.
The following list will show what a large proportion of the stock is from this State, and also that Canada contributes largely this Winter:

McGraw & O'Brien report sales of 1,625 head, at \$3.61 average. The following sales are reported by the sheep brokers doing business at Brownings:
Thomas C. Larkin, 534 head, at \$3.79 average.
Hart & West, 517 head, at \$3.79 average.
Robert H. Hume, 1,225, at \$3.50 average. This included some hard lots, as well as some very good ones.
Chamberlin reports the rates of Sheep at \$2.50, \$3.25, \$3.75, \$3.50 and Lambs, \$2.25, \$3.3, \$3.25, \$4.50.

Receipts this week, 11,299. Prices quoted by H. D. Grant, Superintendent of the market, 5775, \$6.70 ft. prices, 115, is about to less than at this time last year, for the corresponding week, when the weather was good, while now it has been just as bad as it could be. The receipts this week are only 30c more than last, but owing to the action of the railroads a good deal less than at this time last year, and prices not any lower than then, considering the difference between live and dead weight.
The following is Geo. W. Dorman's price of Hogs this week:
